

**social
prescribing
merton**

Social Prescribing links patients in with a range of local, non-medical services to improve their health and well-being. This helps to address needs in a more holistic way.

"Sometimes challenging circumstances are impacting health & well-being, we can link patients with services that help to make positive change to improve quality of life and reduce stress"
Social Prescribing Link Worker Feedback

"I couldn't see the light at the end of the tunnel, but you could, and that kept me going. I don't think I could have dealt with it all alone, thank you"
Patient feedback after Social Prescribing

"I didn't know these services existed although I've lived in Merton all along!" -
Patient feedback after Social Prescribing
